

# AGG-TECH MACHINERY NEWSLETTER

## JULY 2005

### ***FENDT 926 DEMONSTRATIONS – REGISTER NOW!!!!***

**We can now proudly announce that we have available for demonstrations the fantastic Fendt Vario 926. This magnificent 260 horsepower machine has an infinitely variable transmission for silky smooth operation, is fitted with dual wheels and is fully ballasted, so it is literally champing at the bit to be used! It is also fitted with a full headland management system for effortless use. So all broad-acre farmers book now for your on-site demonstration of this fabulous machine.**

#### **WHATS HAPPENING IN SERVICE DEPARTMENT?**

---

##### **A NEW DYNO!!!!**

Agg-Tech Machinery has just invested in the latest and greatest dyno to provide even better service to our customers. The new machine is an AW which is manufactured in the USA and provides us with invaluable diagnostic information and accurate power readouts.

Every new tractor is now put on the dyno to ensure that it is 100% before it gets to the new owner.

#### **INTERNET SITE**

---

The website is going well and many customers have found the links to various other sites a real bonus. We have also added a new link this month to Rinex who make some very innovative products including Autosteer amongst others. Have a look soon at [www.aggtech.com.au](http://www.aggtech.com.au)

#### **WHATS NEW IN PARTS?**

---

A new range of clothing is now available in parts with some great gear for working on the block. Included in the new range is Jackets, Beanies, Stubby holders, and Caps all with the Massey or Landini logos on them.

#### **TECHNICAL TIPS**

---

Before spraying this year make sure you clean the filtration system and check your spray nozzles for flow. This will help minimise down time and improve performance.

#### **LANDINI UPDATE**

---

##### **Landini Powerfarm**

The first of the new Landini Powerfarm tractors have been delivered to their new owners and they are already starting to prove that they well and truly deserve the good raps they got when they were released a few months ago. New owners report heaps of power and practical features. Very user friendly!

Call today for more information on these great new units!

#### **REVIEWING RECENT EVENTS**

---

##### **The 2005 Mildura Field Days**

The 2005 Mildura field days were reasonably well attended and I am sure that everyone who came along would agree that there was a lot to see. Agg-Tech's site was well stocked and had good reviews from the organisers.

##### **ISEKI**

The field days also gave us a chance to show off all of the new Iseki range. Just released from Agco this month, the range includes tractors from around 20 hp right up to the 56 hp unit. Also in the range is three different mowers including a zero turn model. The new range of mowers is available with five possible horsepower outputs. We currently have a lot of these new units in stock, so come in or phone for more info!

#### **PARTS UPDATE**

---

We now have a new Spare Parts Manager in Vaughan Waters. Vaughan has many years experience in the parts industry, many of those in the Gippsland region.

Vaughan is already looking at various ways of increasing our customer service and providing an even better range of stock to minimise down time and repair delays. He also wants to provide a more diverse range of products to our customers, so look out for new products and great prices soon. Take a look at the back of the newsletter for some of his great specials. Welcome aboard Vaughan!
